Energy Manager of the Year 2020
Lawrence (Larry) Fabina

During his 47 years in the steel industry, Larry Fabina held a series of managerial positions at Bethlehem Steel, International Steel Group, Mittal Steel and ArcelorMittal, ranging from Turn Supervisor to Plant Manager.

In 2006, Larry was named “Manager of Continuous Improvement” and Coordinator of the ArcelorMittal’s USA Energy Reduction Program. Under Larry’s leadership, ArcelorMittal USA attained over $35M in government and utility incentives for energy projects.

Under Larry’s leadership and upper management support, ArcelorMittal USA as the first steel company to join the U.S. Department of Energy’s Better Plants Program and the EPA ENERGY STAR® program. ArcelorMittal USA has been recognized by the ENERGY STAR program twice as a “Partner of the Year” and then attained their highest recognition of “Sustained Excellence” four times for their energy management program.

Larry is a very vocal proponent for energy efficiency and energy management. Through the years, Larry has actively and openly shared his tips, tricks, practices and secrets with anyone who would listen. He has routinely spoken at various conferences, webinars and events. In addition, he has actively written, or been featured in, numerous articles where he has highlighted and shared many insights.

About AEE Awards Program
The International Awards are typically presented in conjunction with the AEE World Energy Conference & Expo: world.aeecenter.org, however this year will be presented virtually on Wednesday, October 14th.

The AEE Awards Programs shines the light on the important work that is being done in energy by individuals, organizations, agencies, and corporations. For more information, visit www.aeecenter.org/awards.
