Get Involved

AEE encourages you to get involved at your local level. Our global network of chapters offers unique opportunities for energy professionals to share ideas and develop their careers, as well as participate in the energy industry.
The Association of Energy Engineers (AEE) promotes the interests of those engaged in the energy industry and fosters action for sustainable development. Our members operate in the dynamic fields of energy engineering, energy management, renewable and alternative energy, power generation, energy services, sustainability, and all related areas. We provide members a framework within which they can network and grow — by staying abreast of the latest industry trends, and by acquiring the tools and training they need to maintain a competitive edge.

It’s Who We Are!

aeecenter.org
AEE members create a global network across the entire energy supply chain, including energy suppliers and energy users. They are found in every business sector, from business, hospitality, and retail, to government and health care. Many are deeply involved in manufacturing and energy-related services, often developing new technologies and products that improve energy usage and span the gap between supply and demand. Others manage buildings and large facilities to ensure they are operating as efficiently as possible.

It’s What We Do!

aeecenter.org
Investing In Our Future

AEE is involved with assisting and developing the next generation of energy engineers. Students and young professionals that when working together, can drive change and make a difference in our future.

Student Chapters

As a student, you are also able to join one of AEE’s many student chapters located on campuses worldwide. Chapters become the “go-to” organization for students to share information, experiences, and objectives alongside their peers. AEE certified members from all disciplines are sought after by leading technology companies for their application knowledge, attitude, and commitment.

Foundation Scholarship

The AEE Foundation Scholarship program encourages students to develop their career in energy engineering and energy management. To date, the Foundation has awarded over $1 million in funds for use by over 1,500 qualified candidates.
Become a Member

When you join AEE you gain access to a wide variety of member benefits, including discounts on US training programs, subscriptions to technical publications, discounts on professional services, as well as industry networking opportunities. You also gain access to vital industry-specific information that keeps you fully informed, while participating in an organization that recognizes outstanding professional achievement.

Corporate Membership

In today’s competitive business environment, progressive organizations show their leadership through a commitment to energy conservation and sustainability strategies. If you belong to such a company, then investing in a corporate AEE membership will provide positive exposure and help differentiate your brand. Also, the individual benefits and resources your team gains will help promote professional excellence and customer affinity.

NEW Benefits for 2019

» Access to monthly webinars presented by leaders and power players in the energy industry.

» Access to previous Keynote Speeches

Your Member Benefits

» Access to local chapter networking opportunities

» Discounts on AEE Energy Conference & Expo events

» Access to Conference proceedings

» VIP discounts on US training programs

» Access to educational resources and publications

» Free subscriptions to industry magazines

» AEE’s energy industry newsletters and journals

» Access to scholarships for undergraduates and graduates

» Participation in member recognition and award programs

» Participation in and access to AEE’s annual “state-of-the-industry” survey

It’s How We Help!

Kick-start Your Career
aeecenter.org/membership
AEE has been at the forefront of energy management and energy efficiency for over 40 years. We have implemented energy certification programs that have helped more than 30,000 professionals gain recognition for their technical knowledge and industry expertise. That’s because our programs are defined by industry experts, and recognized globally by local, state and federal governments, as well as by Fortune 1000 companies, corporations, utilities, energy service companies, and business professionals and engineers like you.

Get Certified & Excel

aeecenter.org/certification
Accredited & Recognized

The Certified Energy Manager® (CEM®) and Certified Energy Auditor® (CEA®) programs are accredited by the American National Standards Institute (ANSI) based on the International Standard ANSI/ISO/IEC 17024 and by Entidad Nacional de Acreditación (ENAC) based on the international standard UNE-EN/ISO/IEC 17024. They are also U.S. Department of Energy Better Buildings Workforce Guidelines Recognized Programs. Cities, states, countries, and organizations worldwide, such as the American Institute of Architects, the Building Owners and Manager Institute, and the U.S. Green Building Council also recognize AEE certification programs.

Scheduled Training Programs

» Certified Energy Manager Training Program

» Distributed Generation Certified Professional Training Program

» Government Focused Certified Energy Manager Training Program

» Certified Water Efficiency Professional Training Program

» Certified Lighting Efficiency Professional Training Program

» Certified Renewable Energy Professional Training Program

» Certified Energy Procurement Professional Training Program

» Certified Measurement & Verification Professional Training Program

» Certified Building Commissioning Professional Training Program

» Certified Existing Building Commissioning Professional Training Program

» Electrical Engineering for Non-electrical Engineers (non-certification course)

Schedule Your Training

aeecenter.org/training
The Association of Energy Engineers has presented energy events for over three decades, such as GLOBALCON® (29 years), EMC® (37 years) and WEEC® (42 years). We are now evolving to deliver exceptional networking and educational opportunities for attendees at three new events in 2019. AEE East, AEE West and AEE World Energy Conferences and Expos bring energy professionals together to learn about the latest energy-saving strategies, services, and technologies.

Global Audience

Events attract a global audience and are held in major locations across the US. These cities are selected because of their balanced energy economies, and the leadership they show for renewable and sustainable developments.
Access to **Innovation**

Each conference includes technical presentations on real issues and marketplace developments that impact your daily decisions. Our events attract keynote speakers that are the “Stars of Energy” and some of the highest level policy makers and environmental leaders. By becoming a part of AEE and participating in our network, conferences, seminars, and expos, you’ll benefit from early exposure to the new and innovative ideas, technologies and

**Save the Dates**

[aeecenter.org/events](http://aeecenter.org/events)

**Energy Conference & Expo**

» Conference opening session by industry leading speakers

» AEE East & AEE West conferences include 5+ tracks, 60+ Sessions over 2 days

» AEE World conference includes 12+ tracks 140+ sessions over 3 days

» Technology Expo with utilities, energy service companies and manufacturers

» Exhibitor Forum Presentations

» Certification & training programs

» Opening networking reception

» Local AEE Chapter networking

» Student Chapter networking

» CWEEL Divisional networking

» Annual International Chapters networking event

» AEE Board Meetings

» Annual AEE Awards

» Legends in Energy

» and lots, lots more....
“Our goal is to provide a framework within which you can network, promote the interest of those engaged in the energy industry, stay abreast of the latest industry trends, and acquire the tools and training you need to maintain a competitive edge.”

Albert Thumann, PE, CEM
Founder, Association of Energy Engineers

Trust AEE...

Connect with your peers, support your industry, and promote your business by pledging to join the Association of Energy Engineers today.
