

EDUCATION VIRTUAL

Premier Virtual Experience

Attendees participate in a fully interactive, instructor-led virtual experience from the comfort of their own home or office. An ideal option for those with travel, time, or budget restrictions. Many of our virtual programs can also be attended in person, which delivers a hybrid experience for both virtual and in-person attendees.

An **Integrated** Experience.

See and interact with the instructors, the in-person attendees, other virtual attendees, and view the program content all in a simple webinar conferencing desktop interface.

Learn from **Multiple Instructors**

AEE's virtual or hybrid training programs offer a premium experience with multiple instructors. Each instructor has greater than 20 years of experience in the industry. They present the latest practices, strategies, and theories, while leading discussions in an open, interactive environment. You also spend valuable time connecting with and learning from other program attendees. In each topic covered, the instructors focus on the most "useful" and "proven" activities to pursue in both the short and long terms, so that you can make an impact immediately after the program, and improve profits in the long term.

Get **Certified** Remotely

You are able to take an exam from the comfort of your own home or office while an exam proctor monitors your progress using a webcam and screen sharing technology.

Why Virtual?

- » Learn from the experts in energy management and energy efficiency
- » Prepare for AEE certification exams
- » Attend From Anywhere - Simply join online, interact with your class and instructors
- » Zero travel - Comply with travel restrictions
- » Reduced expenses - Zero travel, hotel or meal costs
- » Socially responsible - Reduced your carbon footprint

Technical Requirements

- » PC or Mac with microphone and speakers, headphones or headset
- » Online Broadband (non-secured) bandwidth of 3 Mbps. A wired connection is highly recommended
- » The ability to install a VTR Conference Client
