

## Students and Young Professionals

## Investing In Our **Future**

The Association of Energy Engineers is committed to a sustainable and balanced future. We think that starts with human energy and the power to initiate change. That is why we are involved in assisting and developing the next generation of energy engineers. Students and young professionals that when working together, can drive change and make a difference in our future.

## Kick-start Your Career

AEE welcomes individuals looking to build a career in the clean energy industry. Starting down a path that will impact your whole life can be a daunting and challenging task. By joining AEE, you gain access to a pool of resources, networking opportunities, and access to professionals in your field of study — plus many other benefits that will be of invaluable help along the way.

**“AEE is the backbone of my professional development.”**

**Gertrude Villaverde**

Oregon State University Cascades | Energy Systems Engineering Student

## Student Chapters

As a student, you are also able to join one of AEE’s many student chapters located on campuses worldwide. They are the “go-to” organizations for students to share information, experiences, and objectives alongside their peers. AEE certified members from all disciplines are sought after by leading technology companies for their application knowledge, attitude, and commitment.
