Dear Valued Members,

We are thrilled to welcome you to the Association of Energy Engineers (AEE) Membership Benefits Guide. This guide is a key resource, offering a comprehensive overview of the exclusive benefits, opportunities, and ways to engage with our vibrant AEE community.

At AEE, we pride ourselves on being at the forefront of the energy engineering industry. Our members are the heartbeat of our organization – passionate professionals committed to making a significant impact in the energy sector.

As you explore this guide, you will discover a range of benefits tailored to enhance your professional journey. Your membership with AEE is more than just a credential; it is a gateway to a global community of like-minded professionals, a platform for continuous learning, and an opportunity to shape the future of energy engineering. We are excited to embark on this journey with you, as we strive towards a more sustainable and energy-efficient world.

Member Webinars

As a member of AEE, you have exclusive access to our free member webinars. These webinars are a vital resource for keeping up to date with the latest trends, technologies, and best practices in the energy industry.

Learn from Industry Experts

- Each webinar is carefully curated and presented by renowned experts in the energy sector. These seasoned professionals bring a wealth of knowledge and experience, offering insights into current energy challenges, innovative solutions, and future trends.

Share Your Expertise

- We invite members to submit an abstract for consideration to host a webinar. Submit through our Webinar Presentation Form to host a content-focused, 30-45 minute webinar with a 10-15 minute Q&A.

Earn Credits for AEE Certification Renewal

- Our webinars are more than just informative sessions; they are also a pathway to maintaining your AEE certification. Live attendance at technical webinars earns you AEE credits.

AEE Reference Library

The AEE Reference Library serves as your gateway to a comprehensive collection of technical knowledge and resources in energy.

Tailored for Industry Leaders

- As a member of AEE, you have the opportunity to enhance your professional knowledge through our extensive collection of over 200 technical reference books. These publications cover a wide range of topics crucial to your profession, including energy management, engineering, renewables, clean energy, and sustainability. Members get direct savings through the eLibrary and AEE Bookstore.

eLibrary

- While the standard annual subscription rate for the eLibrary is \$125, AEE members can access the same wealth of information for just \$35 per year – a substantial saving that underscores our commitment to your professional development.

Bookstore

- A key benefit of your AEE membership is a 15% discount on both printed books and eBooks available through the AEE Bookstore. This discount provides an affordable way to expand your personal library with the latest resources in the energy field.

Awards & Recognitions

At AEE, we believe in recognizing and celebrating the contributions made in energy management, energy efficiency, sustainability, and related areas. Our Award and Recognition Programs are designed to shine a spotlight on the outstanding work and achievements within our industry. AEE members can nominate for the International & Regional Awards.

International Award Categories

- Energy Engineer of the Year
- Corporate Energy Management
- Institutional Energy Management
- Energy Professional Development
- Energy Manager of the Year
- Energy Project of the Year: National
- Energy Project of the Year: International
- Energy Project of the Year
- Innovative Energy Project of the Year
- Energy Innovator of the Year
- Young Energy Professional of the Year

Regional Award Categories

- Regional Energy Engineer of the Year
- Regional Corporate Energy Management
- Regional Institutional Energy Management
- Regional Energy Professional Development
- Regional Energy Manager of the Year
- Regional Energy Project of the Year
- Energy Project of the Year
- Regional Innovative Energy Project of the Year
- Regional Energy Innovator of the Year
- Regional Young Energy Professional of the Year

AEE Chapter Award Categories

- Best Chapter Leader
- Best Sustainability Program
- Best Chapter Newsletter
- Best Chapter Website
- Best Community Service
- Best Chapter Meeting
- Best Chapter Conference or Expo
- Best Student Chapter Support
- Best Overall Chapter Performance
- CWEEL Champion

AEE Student Chapter Award Categories

- Best Outreach Program
- Best Student Chapter Newsletter
- Best Community Service
- Best Student Chapter Meeting
- Best Student Chapter Conference or Expo
- Best Student Chapter Social Media Campaign
- Outstanding Student Chapter Member
- Best Overall Student Chapter Performance

AEE Divisions

Maximize the benefit of membership by subscribing to a division. AEE divisions help keep members who work, operate, or are interested in a specific field up to date on the latest news and developments. Division members receive complimentary subscriptions to unique AEE Journals or e-Newsletters related to that Division's field of study.

Alternative and Renewable Energy Development Institute (AREDI)

- Stay informed on the technological advances in solar, wind, biomass, and other green/ renewable/ alternative energy sources.
- Division members receive a complimentary PDF version of the Alternative Energy & Distributed Generation Journal.

Cogeneration and Distributed Generation Institute (CGI)

- Stay informed on the cogeneration and distributed generation industries. This division is for those interested in independent power production, exempt wholesale generation, innovative technologies and applications, and regulatory, market, and other power industry developments.
- Division members receive a complimentary PDF version of the Alternative Energy & Distributed Generation Journal.

Environmental Engineers & Managers Institute (EEMI)

- Stay informed on emission credits, trading, monitoring and control, greenhouse gases, recycling, global climate change strategies, and improving indoor building air quality.
- EEMI publishes the Environmental Newsletter three times per year. The newsletter focuses on the integrated approach to pollution prevention.

Energy Services Marketing Society (ESMS)

- Stay informed on industry news and information for energy services, power and natural gas marketing, performance contracting, and energy project financing.
- ESMS members receive the ESMS e-newsletter four times per year.

Facility Managers Institute (FMI)

- Stay informed on plant management, energy procurement, security, building performance, maintenance scheduling, equipment upgrades, multi-site portfolio management, budget planning, energy efficiency, communications technology, environmental compliance, and productivity.
- Division members receive the Facility Management Newsletter four times per year.

Energy Managers Society (EMS)

- EMS brings together energy engineers and non-engineers recognized as experts or leaders in their field. Its mission is to assist these individuals to improve the practice of energy management.
- Division members receive the Energy Managers Digest e-newsletter four times per year.

AEE Member Cost: \$30/year per division

Join Divisions by logging into your AEE member portal and use the 'upgrade membership' form.

Council on Women in Energy and Environmental Leadership

CWEEL is a division of AEE and supports career development for women across the energy industry. This includes mentoring, networking, and scholarships for aspiring women to pursue technical education and careers in the energy and environmental fields. CWEEL is one way AEE supports a greater diversity of experience, talent, and ideas across our industry.

AEE Members can add membership for the CWEEL Division in the AEE Member Portal at no extra cost.

Membership

- CWEEL supports the role of women in the energy and environmental fields. The CWEEL programs assist in career development activities for existing industry professionals and aspiring young leaders.

Events

- Members of CWEEL formally meet at AEE events throughout the year. These social and technical events provide opportunities to network and learn from women in energy and environmental engineering from around the world

CWEEL Scholarship

- CWEEL collaborates with the AEE Foundation to champion women students' futures and growth in the energy and sustainability industry. CWEEL is also proud to support a dedicated scholarship, the CWEEL US Scholarship, awarding the top US female applicant \$2,500.

Career Hub

The AEE Career Hub is a platform for AEE members that offers a dedicated space to advance your professional trajectory. Here, members and employers alike can engage, connect, and find mutual opportunities for growth and advancement. Whether you are looking to move forward in your career or seeking the right talent for your organization, the AEE Career Hub is the perfect starting point.

For Job Seekers:

- As an AEE member, you gain complimentary access to the Career Hub where you can build and post your resume. This feature allows you to highlight your skills and experience to a targeted audience of employers in the energy industry. The Career Hub is also an invaluable tool for exploring job opportunities that align with your unique skill set and professional aspirations.

For Employers:

- If you are an employer, the AEE Career Hub offers a unique opportunity to connect with a pool of talented energy professionals. AEE Membership includes free access to the Career Hub as an employer, enabling you to promote open positions within your organization. This platform provides a streamlined way to reach qualified candidates dedicated to energy engineering and seeking new opportunities.

AEE Journals

In the evolving world of energy engineering and management, staying informed with the latest industry developments is crucial. AEE members receive exclusive access to essential industry information, helping you maintain your competitive edge in the field.

Alternative Energy & Distributed Generation Journal

- The Alternative Energy & Distributed Generation Journal is an official quarterly publication. The journal publishes original articles and papers addressing state-of-the-art technological advances in cogeneration and distributed generation, solar, wind, biomass, and other green, renewable, and alternative energy sources.
- AEE Members subscribed to the Alternative & Renewable Energy Development Institute, or the Cogeneration and Distributed Generation Institute divisions receive an electronic PDF version of the journal.

International Journal of Energy Management

- The International Journal of Energy Management is an official bi-monthly publication. The journal publishes original articles and papers detailing the latest engineering or analytical approaches to energy management and energy efficiency.

International Journal of Strategic Energy & Environmental Planning

- The International Journal of Strategic Energy & Environmental Planning is an official bi-monthly publication. The journal publishes original articles and papers detailing the latest strategic energy management issues such as management, corporate sustainability initiatives, and energy policy.

Conferences and Events

We are proud to offer our members unparalleled opportunities to connect, learn, and grow through our global events. A key benefit of your AEE membership is exclusive access to substantial discounts at these events, ensuring that the best of the energy industry is always within your reach.

Your Ticket to Professional Growth

- Attend AEE Conferences at Preferred Member Price.
- Members receive complimentary access to all conference proceedings regardless of whether they attended the event or not.

Mentorship Program

Our mentorship program aims to nurture the next wave of energy and sustainability professionals. This initiative reflects our commitment to developing a strong workforce and offers AEE members an additional benefit. The program connects emerging professionals with experienced industry leaders, providing valuable guidance and insights.

For Mentees

- Participants receive personalized guidance from experienced professionals, gaining valuable insights into AEE's certification programs and industry intricacies. Mentees expand their professional networks, accessing crucial resources and opportunities in the energy efficiency sector. This targeted support accelerates career advancement by helping mentees set goals and make strategic career decisions under expert guidance.

For Mentors

- By sharing expertise with the next generation of professionals, mentors make a lasting positive impact. This role offers opportunities to expand professional networks through connections with motivated, aspiring individuals. Additionally, mentors gain recognition as leaders within the AEE community, contributing to the industry's development while experiencing the personal fulfillment that comes from guiding others in their career journey.

[LEARN MORE](#)

Local Chapter Membership

Step into the power of community by joining AEE and getting involved in your local AEE chapter. Over 120 AEE chapters operate worldwide – promoting AEE's mission, building networks, providing leadership, and recognizing innovation.

Professional Chapters

- AEE chapter membership fosters a supportive community of energy professionals and local businesses, often becoming the leading resource for energy-related matters in their areas. This collaborative environment provides opportunities for personal growth, networking, and making a meaningful impact in your local energy community.

Student Chapters

- As a student, you are able to join one of AEE's many student chapters located on campuses worldwide. Students share information, experiences, and objectives alongside their peers, instructors, and professors.

Getting Involved

Being a part of the conversation locally can help grow your network, improve your business, and impact the global community.

Start a Local Chapter

- Take initiative in your community or university by establishing a chapter. AEE provides support and resources to help you create a hub for energy professionals in your area. By starting a chapter, you can foster local connections, share knowledge, and contribute to the growth of the energy industry at a grassroots level.

Speak At Our Conferences

- Call for Papers open prior to each event and will be carefully reviewed by our Conference Speakers Director.

Attend AEE Conferences & Technical Summits

- We deliver exceptional networking and educational opportunities for attendees and bring energy professionals together to learn about the latest energy-saving strategies, services, and technologies.

Call to Action

For Members

- As a member of AEE, you are part of a community dedicated to advancing the field of energy engineering. We encourage you to fully utilize the benefits available to you. Whether it is enhancing your knowledge, connecting with industry experts, or advancing your career, each benefit is designed to support and enrich your professional journey. Make the most of your AEE membership today - the possibilities are limitless!

For Non-Members

- If you are not yet a member of AEE, we invite you to join our vibrant community. As a member, you will gain access to a world of exclusive resources, professional development opportunities, and a global network of energy professionals. From significant savings on educational resources and events to exclusive access to the latest industry insights and career advancement tools, AEE membership is an investment in your professional future. Join us at AEE and start taking advantage of all we have to offer.
